

Genelite

YOUR POWER GENERATOR SPECIALIST

POWER YOU CAN RELY ON!

We are proud of our reputation for quality products and service. We specialise in the design and manufacture of quality portable and permanent installation petrol and diesel generator sets. As the manufacturer, we are easily able to modify standard specifications and produce a purpose-built unit, tailor-made to suit your exact requirements. Our power plants are currently in use throughout Australasia. Our products are supplying continuous and backup power for industrial, commercial and residential premises.

We provide generators for rural, agricultural pumping and irrigation, the hire and construction industry, camping, motor homes, marine, and general purpose applications.

We have an enviable reputation of being one of the market leaders in the generator industry, supplying stand-by and continuous-run generators for:

• Camping

• Motor homes

• Builders and construction sites

• Commercial, rural and residential premises

• Pumping and irrigation

• Stand-by and continuous-run generators for the Mining Industry

• General-purpose applications

• Marine industry and many others

Genelite provides an extensive range of quality diesel, petrol and gas-powered engines – all matched to quality A/C Alternators. Our generators range from 1 kva through to 3000 kva. In other words, we can cater for most needs.

WE ALSO SELL USED GENERATORS, OFFERING A COST-EFFECTIVE ALTERNATIVE TO OUR NEW MACHINES.

(In the case of used equipment, all units are rigorously tested by specialists, to ensure the ongoing reliability of everything we sell.)
